FRAME CONSTRUCTION	

PRODUCT SPECIFICATIONS	
<p>Our wood lounge frames are bench made exclusively in North Carolina by local craftsmen who have been building furniture in this area for generations. We use only kiln-dried Beech or beech hardwood (5/4 size minimum) or durable engineered wood panels crafted of multilayered solid wood veneers to reduce movement, twisting and warping. Key joints are reinforced with traditional double dowels, corner blocks and interlocking joints to withstand weight and stress. Exposed wood furnishings are handcrafted of the finest Beech or beech hardwoods. Rails are double doweled and corner blocked for maximum strength. All corner blocks are screwed and/or stapled to insure strength.</p>
